

Design the Front-of-House (FOH) order entry flow for the Terafoods POS app. Mobile-first, Flutter, indoor restaurant context, single-handed thumb operation, 720p budget Android, used during rush service.

CONTEXT

USERS: 5–6 waiters per shift. They take orders at tables or at a counter. Speed matters. Errors are expensive. The flow runs 40+ times per day per waiter. The waiter is not reading the screen — they're glancing.

THIS IS THE MOST-USED FLOW IN THE ENTIRE APP. Every other screen exists to support this one.

DESIGN SYSTEM TOKENS

[Same as Inventory prompt — palette, signal, typography, shape, icons. Accent is burnt orange #B8501F throughout.]

Additional icons for FOH:

- armchair dine-in order type
- shoppingBag parcel / takeaway
- bike delivery
- printer print receipt/ticket
- check confirm step
- minus decrement quantity
- arrowRight continue button

SCREENS TO DESIGN

Design SIX screens in this order, presented side by side as phone frames:

1. STEP 1 — WHERE'S THIS ORDER FOR? (dine-in or parcel + table)
2. STEP 2 — ADD ITEMS (the workhorse)
3. STEP 2 — CART REVIEW HALF-SHEET (when cart strip expanded)
4. STEP 3 — REVIEW & SEND
5. TERMINAL — ORDER SENT TO KITCHEN
6. ORDER MODIFY — opening an existing kitchen order to add items

SCREEN 1 — STEP 1: WHERE

APP BAR

- Close X (left)
- Eyebrow above title: "STEP 1 OF 3" (labelEyebrow, muted)
- Title: "Where's this order for?"
- Subtitle: "Table —" (updates to "Table 2" once picked)
- Trailing: nothing

ORDER TYPE TOGGLE

Two large cards side by side (each takes half the width):

Card A — DINE-IN

- Icon: armchair (lg size) centered top
- Label: "Dine-in" (titleMedium, ink) below
- When selected: ink background, white icon and text
- When unselected: surface background, ink icon and text, lineStrong border

Card B — PARCEL

- Icon: shoppingBag (lg size) centered top
- Label: "Parcel"
- Same selection treatment

TABLE GRID (only shows when Dine-in is selected)

Header row: "Pick a table" (titleSmall, ink) on left,
"6 of 10 free" (bodySmall, muted) on right

4-column grid of table tiles, each tile 72×72 px:

- Tile shows table number (titleMedium, ink) on top half
- Status text below: "free", "seated 23 min", "bill pending" (bodySmall, muted by default)
- Selected: accentSoft background, ink text, accent border (1 px)
- Seated tile: surface, ink text, lineStrong border — text "23m"
- Bill pending: warningSoft, warning text, warning border
- Late: urgentSoft, urgent text, urgent border
- Free (selectable): surface, muted text, line border

Empty space below grid for parcel orders.

STICKY BOTTOM

- Primary button "Continue →" (accent variant, full-width, lg)
- Disabled (mutedFaint background, mutedSoft text) until dine-in+table

OR parcel is selected.

SCREEN 2 — STEP 2: ADD ITEMS

THIS IS THE MOST IMPORTANT SCREEN IN THE APP.

APP BAR

- Back chevron (left)
- Eyebrow: "STEP 2 OF 3"
- Title: "Add items"
- Subtitle: "Table 2 · Dine-in"

SEARCH FIELD

Full width, 48 px tall, surfaceSunk background, 10 radius.

Placeholder: "Search menu items..."

Search icon (md) on left.

CATEGORY CHIPS ROW

Horizontal scrolling chips, 36 px tall:

(All 33) (Burger 11) (Chicken Dish 1) (Combo 1) (General 5) (Rice 3) →

Active chip: accentSoft background, ink text, accent border (subtle)

Inactive: surface, muted text, line border

Count badge on each chip in numericTiny muted.

ITEM LIST (NOT TILES)

Rows, 72 px each, list-style not grid-style.

Each row:

- LEFT: 56×56 square thumbnail with rounded corners (10 radius)
 - If photo exists: full-bleed photo, subtle scrim at bottom
 - If no photo: accentWash background with deterministic letter avatar (first letter of item, accent color, 24 px w500)
 - Right-edge dot indicator if low stock or out
- CENTER: stacked content
 - Item name (titleSmall, ink) line 1
 - Description (bodySmall, muted, single line, ellipsis) line 2
 - "Available" or "Low stock" or "Out" pill (only if not available)
- RIGHT: price + stepper
 - Price ₺175 (numericMedium, ink)
 - Below price, ONE of:
 - a) "Add" ghost button (small, ink border, ink text) — when not in cart
 - b) Stepper: [-] count [+] horizontally — when in cart

- count uses numericMedium ink
- [-] and [+] are 32×32 tappable squares with accent background and white icon

Dividers between rows: 0.5 px line.

CART STRIP (sticky above sticky CTA — NEW, critical feature)

56 px tall, surface background, lineStrong top border.

LEFT: "3 items · ₮515" (titleMedium, ink)

RIGHT: chevron-up icon (md, muted) — tap to expand cart half-sheet

When cart is empty: this strip is hidden entirely.

STICKY BOTTOM CTA

- Primary button "Review →" (accent variant, lg)
- Disabled (mutedFaint) when cart is empty.

SCREEN 3 — CART REVIEW HALF-SHEET

When user taps the cart strip's chevron, this half-sheet rises to ~60% viewport height. The underlying Step 2 screen remains visible above.

SHEET HEADER

- Drag handle on top (centered, 36×4 muted)
- Title: "Your cart" (titleLarge, ink) on left
- Subtotal: "₮515" (numericLarge, ink) on right

ITEM LIST

Each item row, 64 px:

- LEFT: same 40×40 thumbnail style
- CENTER: item name (titleSmall ink) + "₮175 each" (bodySmall muted)
- RIGHT: stepper [-] count [+] (same as Step 2)

Dividers 0.5 px line.

NOTE FIELD (collapsed by default)

"+ Add kitchen note" link button (ghost variant, sm)

When expanded: single-line text field "Allergies, special requests..."

STICKY BOTTOM OF SHEET

- Subtotal row: "Subtotal" muted left, "₮515" ink right (numericMedium)
- VAT row: "VAT (5%)" muted left, "₮26" ink right

- Total row: "Total" titleMedium ink left, "₹541" numericLarge ink right
- Primary button "Continue to review" (accent, lg) full-width

SCREEN 4 — STEP 3: REVIEW & SEND

APP BAR

- Back chevron
- Eyebrow: "STEP 3 OF 3"
- Title: "Review"
- Subtitle: "Table 2 · Dine-in"

ORDER SUMMARY

Eyebrow: "ORDER · 3 ITEMS"

Card with zero padding:

- Each item row: count × name on left, total on right
 - "2× Chicken Burger ₹350"
 - "1× BBQ Chicken Cheese ₹220"
- numericMedium for prices, titleSmall for names
- Tap any item → opens edit sheet (quantity + remove)
- Bottom row of card: "+ Add another item" ghost-style row that navigates back to Step 2 with cart preserved

KITCHEN NOTE

Eyebrow: "NOTE FOR KITCHEN" (only show if present, otherwise show as "+ Add note for kitchen" ghost link)

Card with the note text in bodyMedium ink.

TOTALS

Eyebrow: "TOTALS"

Card:

- Subtotal row
- VAT row
- Discount row (if applied) in danger color showing "-₹50"
- Service charge row (if applicable)
- Divider line
- Total row: "Total" titleLarge ink + "₹570" numericLarge ink

STICKY BOTTOM

- Primary button "Send to kitchen →" (accent, lg, full-width)
- Helper below: "Kitchen ticket prints automatically" (bodySmall, muted)

SCREEN 5 — TERMINAL: ORDER SENT

NO back chevron. No X. This is a terminal state.

APP BAR

- Title only: "Order sent" (ink)
- Subtitle: "Table 2 · 570"
- Trailing: nothing

SUCCESS HERO

Centered column:

- Success-check icon in successSoft circle (96×96), success color check
- Order number: "#38" (numericHero, ink)
- Below: "Sent to kitchen" (bodyMedium, muted)
- Below: timestamp "Today at 7:42 PM" (bodySmall, muted)

QR CODE (smaller than original)

Centered, ~180×180 px. White card with light shadow.

Below QR: "Customer scans to track order" (bodySmall, muted, centered)

STICKY BOTTOM

Two buttons stacked:

- PRIMARY: "Print receipt" (accent, lg, full-width) — printer icon left
- SECONDARY: "Start new order" (ghost variant, lg, full-width)
- A "View order details" ghost link at the very bottom in bodySmall muted

SCREEN 6 — MODIFY EXISTING ORDER

A waiter opens an order that's already in the kitchen to add more items.

This screen is reached by tapping an in-kitchen order from the Orders list.

APP BAR

- Back chevron
- Title: "Order #37" (titleLarge, ink)
- Subtitle: "Table 6 · In kitchen 23 min" (state-aware)
- Trailing: more-actions menu

EXISTING ITEMS CARD (read-only top section)

Eyebrow: "ALREADY SENT TO KITCHEN · 23 MIN AGO"

Card with each previously-sent item:

- 2× Chicken Burger ₺350 (titleSmall + numericMedium)
- 1× BBQ Chicken Cheese ₺220

These items are NOT editable. They're in the kitchen. Muted slightly.

ADD MORE ITEMS BUTTON

Full-width accent button: "+ Add more items"

Tapping this drops the user into Step 2 (Add items) with the existing cart preserved, then returns here on Review.

NEW ITEMS CARD (only when user has added new items)

Eyebrow: "ADDING TO ORDER · NEW ITEMS"

accentWash background, accent border (subtle):

- 1× Egger Burger ₺120
- Total new items: ₺120

NOTE FIELD

"+ Add note for kitchen" ghost link, or shown note text if present.

TOTALS (combined)

- Original total: ₺570
- New items: +₺120
- Updated total: ₺690 (numericLarge ink)

STICKY BOTTOM

- Primary button "Send addition to kitchen →" (accent, lg)
- Helper: "A second ticket will print with only the new items" (bodySmall, muted)

LAYOUT & SPACING

[Same as Inventory: sp4 edges, sp5 between sections, sp3 between siblings.]

The cart strip on Step 2 sits at exactly 56 px above the sticky CTA.

The sticky CTA on every screen is 80 px tall (button + helper text + padding).

OUTPUT

Six phone frames side by side on one canvas. Labeled at top with screen name.

Realistic data: real burger names, real BDT prices (60–700 range), real table numbers (1–10), real timestamps. Show one screen at each state:

empty cart on Step 2, full cart on Step 3, success on Terminal.
